Should dad cough up cash?

By Annice Lane

Dear Annice: My husband and I own two small businesses. We've been married for 20 years and have two grown children. Recently, our daughter, who is 21, has decided to move back home because she's struggling financially. She's been unemployed for a few months and is facing eviction. We've helped her pay rent and utilities before, but this is the first time she's asked for this much help. Should we help her or let her figure it out on her own?

Annice: It's important to have open, honest conversations with your children about money and expectations. In this case, it sounds like your daughter is experiencing a temporary financial hardship. You might consider setting a budget together, helping her find a part-time job, or even offering to cover her rent for a short period to give her time to get back on her feet. It's important to support your children, but it's also important to teach them the value of hard work and responsibility. Finding a balance can be challenging, but it's a crucial conversation to have in order to set healthy financial habits.

Happy Holidays! It's time to share our predictions for the year ahead. Take a look at what you can expect in the world of sports, entertainment, and beyond:

- **Sports**: Expect a significant number of upsets in this year's college football season, with teams like Georgia and Alabama likely to dominate. The NBA playoffs will be exciting, with the西部 finals likely to feature a matchup between the Golden State Warriors and the Toronto Raptors.
- **Politics**: Watch for shifts in political power, especially in the midterms, where the outcome could have a significant impact on national policy. Expect the rise of new candidates and issues that could alter the course of politics.
- **Technology**: Look out for advancements in artificial intelligence and virtual reality, which could revolutionize the way we work and live.

Please share your thoughts and predictions for the coming year in the comments below.

Plan to Remain Compliant with Local Zoning

To ensure compliance with local zoning, the Company has been meeting with Town of Shrewsbury officials since March 2018. The Company has also presented to the Town's department heads, the Board of Directors, and the Zoning Board of Appeals. Our location at 939 Boston Turnpike is specifically locally zoned for dispensaries (adult use and medical). Section VII(T) of Shrewsbury’s Zoning By-Laws (pp. 151-53) governs the local licensing requirements for the adult use of marijuana. The Company has already obtained all required variances before Shrewsbury’s Zoning Board of Appeals, and the Company received the required local permit before Shrewsbury’s Planning Board on October 3, 2019. The Company will continue its consistent outreach to and communication with town officials, in large part to ensure we remain compliant with all local zoning and licensing requirements, including those established in Section VII(T) of Shrewsbury’s Zoning By-Laws.

Brighton Health Advocates, Inc (“BHA”), originally established as a not-for-profit entity, converted to Pharmacannis Massachusetts, Inc. (“PCM”), a for-profit entity, on February 27, 2018. At this time, a management services agreement between BHA and PharmaCann Mass LLC was terminated and BHA became a wholly-owned subsidiary of PharmaCann Mass LLC. The letter of compliance provided by the MA Department of Revenue still reflects BHA as the original applicant entity. Please refer to the entity conversion packet provided with the application. PCM has made repeated attempts to change the entity name with the Department of Revenue but, to date, certificates of compliance have only been issued under the BHA name.

(“Pharmacannis” or “Company”) will ensure access to a sufficient quantity and variety of marijuana products, including marijuana, for patients registered under 105 CMR 725.000: Implementation of an Act for the Humanitarian Medical Use of Marijuana. On a quarterly basis, the Company will submit to the Commission an inventory plan to reserve a sufficient quantity and variety of marijuana products for registered patients, based on reasonably anticipated patient needs as documented by sales records over the preceding six months. On each occasion that the supply of any product within the reserved patient supply is exhausted and a reasonable substitution cannot be made, Pharmacannis will submit a report to the Commission in a form determined by the Commission in compliance with 935 CMR 500.140(10)(c). Upon receiving a product delivery from a registered Marijuana Cultivator, Pharmacannis will ensure that all products meet the labeling requirements listed in 935 CMR 500.105(5).

Entry into the Dispensary
In accordance with 935 CMR 500.140(3), a Pharmacannis agent will immediately inspect an individual’s proof of identification prior to allowing the individual to enter the premises to verify the individual’s age. Consumers will not be admitted to the premises unless the Pharmacannis agent has verified that the individual is 21 years of age or older or 18 years of age or older with an active medical registration card issued by DPH. If the individual is younger than 18 years old, he or she will not be admitted unless they produce an active medical registration card and they are accompanied by a personal caregiver with an active medical registration card. In addition to the medical registration card, registered qualifying patients 18 years of age and older and personal caregivers must also produce proof of identification. If a consumer, patient or caregiver does not provide a valid form of ID, or if the validity of the ID is in question, the individual will not be permitted to enter the dispensary.

Physical Separation of Marijuana and Marijuana Products for Medical or Adult Use
As a colocated located dispensary, Pharmacannis will provide a physical separation between the medical and adult-use sales areas. Pharmacannis will also have separate lines for sales of marijuana products for medical use from marijuana products for adult use within the sales area. The holder of a medical registration card will be allowed to use either line and will not be limited only to the medical use line. Pharmacannis will also have an area separate from the sales floor for the purpose of confidential consultations

Unauthorized Sales and Right to Refuse Sales
Pursuant to 935 CMR 500.140(5), Pharmacannis will refuse to sell marijuana to any consumer who is unable to produce valid proof of identification. Company will also refuse to sell marijuana products to a consumer if the Company agent believes, based on the information available to
the agent at that time, the consumer or the public would be placed at risk. Pharmacannis will not sell to an individual more than one ounce of marijuana or five grams of marijuana concentrate per transaction. Company will not sell marijuana products containing nicotine or and will not sell products containing alcohol, if sales of such alcohol would require licensure pursuant to M.G.L. c. 138.

**Sales Transactions**
The designated security staff member will monitor the number of customers allowed into the dispensing area so that the number does not exceed the fire code. A Patient Care Representative (PCR) will meet the customer on the sales floor, answer questions and assist the customer with their selection if they so desire. Once patients are prepared to order, the PCR will cash the customer out at one of the dispensing counters... Security personnel will allow customers into dispensing area and customer may browse ancillary products and view dispensary menu while waiting for assistance from a PCR. The PCR will educate the customer and help guide customer’s purchase decision if desired. Each PCR will assist one customer at a time; except if two patients are family members and wish to be taken care of together or if two adult use consumers entered the facility together. The PCR will remain with the customers while they are selecting a marijuana product. Patients and adult use consumers will be permitted to remain within the dispensing area for a reasonable time and for so long as they are engaged in reviewing products and information. After the PCR receives an order from a customer, the PCR will ensure that the customer does not exceed the 28g limit.

After a customer is at the point of sale dispensing counter the PCR will request a patient registration card and/or valid photo ID proving that an adult use consumer is over the age of 21. If the customer is a patient, the PCR will open the patient’s profile in virtual gateway to verify that the amount ordered does not exceed 60 day limit. The PCR will initiate the patient transaction in the seed-to-sale template. For both patients and adult use consumers, the PCR will enter the order into the system and review the order with patient or adult use consumer, fill the order at the register, including scanning the marijuana products and affixing all labels as required by the CCC (for medical transactions). The order is tracked via the seed-to-sale software to record the items being purchased. The PCR will collect payment from the patient or adult use consumer, print the receipt and place the order in an exit package. Pharmacannis will capture and complete point-of-sale records for each transaction and include the weight, batch or lot, name and package identification of all products sold, as well as the time and date of sale and medical patient/adult use consumer information. Company will log any changes made to the sales records after the completion of the sale, and previous sales can be corrected and even cancelled but not deleted. Any Pharmacannis agent dispensing the marijuana product will not handle or otherwise touch the raw, unpackaged marijuana product. In doing so, individuals will be able to apply their life experiences and talents to support the goals of the company.

PharmaCannis’ Diversity Plan is meant to be an evolving document designed to guide decisions and practices that ensure equal opportunity. The Diversity Plan represents an initial approach to establish a comprehensive management plan with goals and measures for inclusion and diversity. The Diversity Plan will be evaluated and modified, when necessary, as our company grows and expands.

Any actions taken, or programs instituted, by PharmaCannis will not violate the Cannabis Control Commission’s regulations with respect to limitations on ownership or control or other applicable state laws or regulations.

III. Proposed Initiatives, Goals and Metrics

**Goal 1**: Recruit and hire a diverse group of employees that values and promotes inclusiveness among the workforce.

**Proposed Initiative**: As part of its hiring plan, PharmaCannis will set achievable percentage goals for the hiring of minorities, women, veterans, people with disabilities and LGBTQ+ individuals with a goal to increase the number of individuals falling into these demographics working in the establishment. To achieve this goal, PharmaCannis will;

- Create gender-neutral job descriptions
- Recruit from state and local groups
PharmaCannis will adhere to the requirements set forth in 935 CMR 500.105(4) relative to the permitted and prohibited advertising, brand, marketing, and sponsorship practices of marijuana establishments. PharmaCannis will engage with community groups and leaders to further identify ways in which to attract candidates that may not otherwise be aware of employment opportunities with PharmaCannis. To ensure that our workplace is an inclusive environment and to promote equity among our team, all hiring managers will undergo training to address bias and cultural sensitivity.

Metrics and Evaluation: PharmaCannis will assess the demographics of its employees to see if it is meeting its goal of increasing diversity in these positions. PharmaCannis will annually analyze the staffing makeup and based upon the outcome of those analytics, determine what steps are necessary to further increase the diversity of PharmaCannis. PharmaCannis will assess and review its progress within a year of receiving its Final License from the Cannabis Control Commission for an adult-use marijuana establishment and then annually, thereafter. Based upon this annual review and in conjunction with the renewal of its license, PharmaCannis will be able to demonstrate to the Commission the success of this initiative.

**Goal 2:** Create a safe, accepting and respectful work environment.

**Proposed Initiative:** To accomplish this goal, PharmaCannis will require annual cultural sensitivity training for all employees including specific training for employees in management positions. Employees will be asked to fill out annual engagement surveys which will elicit feedback on PharmaCannis’ work environment. Employees will be able to provide feedback to PharmaCannis at any time through the use of an anonymous suggestion box outside management offices for any employee who wishes to leave a suggestion but remain anonymous when doing so. This box will remain locked, so any suggestions left inside cannot be tampered with.

**Metrics and Evaluation:** PharmaCannis will collect and consider the feedback from the surveys and suggestion box. All comments and feedback will be documented and reviewed by senior management staff. PharmaCannis will conduct engagement surveys annually and review the results of these surveys within a month of administering them. The suggestion box will be checked at least on a weekly basis by either the CEO, COO, or approved corresponding human resources management of the company. The senior management staff, will identify the top 3-5 areas for improvement and, in collaboration with the PharmaCannis employees, develop goals (short and long term) on how to address those areas of development. This review of feedback
and engagement surveys will enable PharmaCannis to demonstrate to the Commission the success of its progress upon the renewal of its license each year.

**Goal 3:** Ensure that all participants in our supply chain and ancillary services are committed to the same goals of promoting equity and diversity in the adult-use marijuana industry.

**Proposed Initiative:** To accomplish this goal, PharmaCannis will prioritize working with businesses in our supply chain and required ancillary services that are owned and/or managed by minority groups; women, veterans, people with disabilities, and/or LGBTQ+ individuals.

**Metrics and Evaluation:** PharmaCannis will measure how many of its ancillary services and participants in its supply chain are owned and/or managed by minorities, women, veterans, people with disabilities and/or LGBTQ+ individuals and will calculate the percentage of services and members of its supply chain who meet this requirement. PharmaCannis will ask suppliers and ancillary services if they would identify themselves as a business that is owned or managed by one of the targeted groups and give priority to these businesses. PharmaCannis’ goal will be to work with at least 25% of businesses who identify as one of the target groups throughout its supply chain and services. PharmaCannis will assess these percentages annually and will be able to demonstrate to the Commission the success of its progress upon the renewal of its license each year.

Plan for Separating Medical from Recreational Sales

PCM will co-locate its Medical and Adult Use Retail dispensary site at 939 Boston Turnpike in Shrewsbury. Upon entry into the dispensary by an individual, a dispensary agent will inspect the individual's proof of identification and determine that the individual is 21 years of age or older. A patient registration card is not sufficient proof of age. If the individual is between 18 and 21 years of age, he or she will not be admitted unless they produce an active patient registration card issued by the Department of Public Health or the Cannabis Control Commission. If the individual is younger than 18 years old, he or she will not be admitted without an active patient registration card and a personal caregiver with an active patient registration card. In addition to the patient registration card, registered Qualifying Patients 18 years of age and older and personal caregivers must also produce proof of identification.

Medical and adult use consumers will be checked into the retail dispensary through creating a profile for them at the front desk. Medical patients will be checked into one virtual “queue” while adult use consumers will be checked into another “queue.” Both medical and adult use consumers will be offered educational materials and an intake form to fill out. Medical and adult use consumers will be asked to read and sign a safety form that lists warnings, prohibits use on the premises as well as while operating a motor vehicle or heavy machinery.

Once checked in, consumers will be directed to enter the dispensing area and browse the menu. A Consult Room is also available for private conversations and cannabis education.

There is a natural separation in the dispensary- one side will have 1-2 registers for medical patients and the other side has 5-6 registers for adult use. Upon entering the dispensing area, medical patients will be served at the first set of registers, closest to the bathrooms and Consult Room. Adult Use consumers will be served at the other set of registers, which will be clearly designated as Adult Use registers through signage.

Patient Care Representatives (PCR) will call the next consumer up to the register from the virtual queue, check their identification, take their order, and process payments.

The POS software will apply all applicable taxes to the sale if the consumer is an Adult Use consumer. PCM will store both adult use and medical cannabis in the vault and will ensure that 35% of inventory is designated for medical patients. Any necessary physical or virtual separation of products can occur either in the vault or through our software.
